Ik zoek dus een school (of twee) die een pilot SchoolOntwikkellab wel ziet zitten

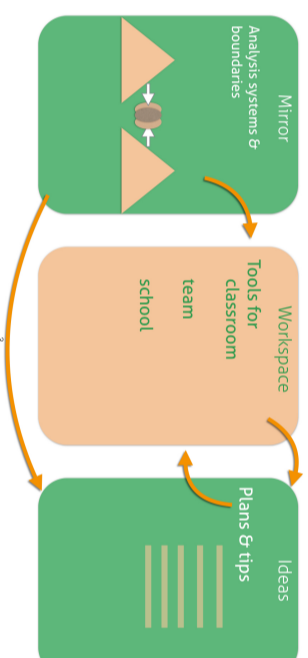

SchoolOntwikkellabs: oproep voor pilotscholen
Geïnspireerd door Engeström's Change Labs (1996) en Daniëls' invulling in een onderwijssetting daarvan (Daniëls, 2008), broedt bij mij al lange tijd het idee van SchoolOntwikkellabs. Ik ben d...

Developing thematic education.

Tools from Developmental Education

Theme planner

Goal circle

The Peel
on fertile ground

Preparation > Orientation > Inquiry > Presentation > Evaluation

Outcome 1

The project 'worked' for students:

- Grading showed no differences with regular teaching
- Good atmosphere "gezellig"

Outcome 2

The project 'worked' for teachers

- Good atmosphere: "gezellig"
- There were 'casual' moments with students

"It reconfirmed my preference to teach in an open way."

"Colleagues came in the room we claimed to steal cookies and said they wanted such a project too."

"Because there was no support from the management, I didn't feel the need to set up the project again."

In an activity directed towards a shared ideal, they developed potential tools for change within the schools activity system. Moreover, the process of expansive learning might have supported their individual agency.
